Mission Engineering
July 17 to July 28, 2017

Mission Engineering offers a two-week intensive summer enrichment program in engineering exploration and preparation!

Student Eligibility:

- Currently enrolled in the 10th or 11th grade
- Completion of Algebra 2 or Trig/Math Analysis or Pre-Calculus by June 2017
- A minimum of 3.0 GPA in college prep courses
- Priority will be given to active MESA and Viterbi partner school students

Engineers make the world work! Explore various disciplines offered in engineering. Experience engineering by designing, building and testing team-oriented, hands-on projects.

The cost of this two-week program is $750. However, all low-income students accepted to this program will receive a FULL SCHOLARSHIP; this will be based on participation in the free or reduced school lunch program.

Program hours are 9:00am to 4:30pm Monday through Friday of each week. Lunch will be provided each day of the program. Selected participants will be responsible for own transportation to and from the USC campus daily.

More information, the online application, and forms can be found at:

https://viterbipk12.usc.edu/missionengineering

In addition to completing the online application, the School Records Request Form must be submitted to your school and the Teacher Recommendation Form given to a math or science teacher. All application materials must be received by May 1. Incomplete applications will NOT be considered. It is the responsibility of the student to ensure that all application materials are received by the deadline.
